

SINZ COMBI | Combined suction and pressure superstructure

Proven technology for waste transport solutions and cleaning of hard-to-reach areas.

CONTROL PANEL
with telematic

BOOM REACH
4m / 70°

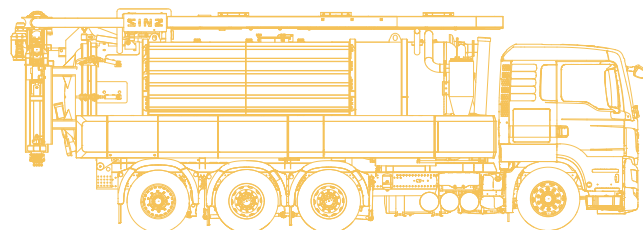

TANK CAPACITY
up 16 m³

SUCTION POWER
4200 m³ / h

Basic parameters

- Easy automated control with user friendly information display - Control panel with Telematics.
- Suction power from 2400 m³/h to 4200 m³/h.
- High pressure water pump with water flow up to 329 l/min at 170 Bar.
- The machine allows simultaneous operation of the vacuum pump and the water pump at full power.
- Sludge chamber volume up to 16 m³.
- Volume of water tanks up to 8 m³.
- Stainless or long-lasting steel tank.
- Tilting the tank to an angle of 40°.
- The rear cover is opening in its entire diameter up to an angle of 90 °.
- Small reel for 1/2 "(DN 13) pressure hose with a capacity of 40 m, designed for rinsing the vehicle is located at the rear of the side and has a hydraulic winding/unwinding.
- Storage space for tools and hoses with lockable laminate doors.
- Possibility of construction on 2, 3 and 4 axle chassis.
- Water pump protection against dry running.
- Hydraulic system protection against overheating and oil leakage.
- Advanced diagnostic software integrated in the SINZ Control panel.
- Rear bumper with hydraulic folding.

Optional items

- Telescopic combined arm rotates 180 ° with an inclination of up to 40 ° up and 30 ° down and a reach of 4 m. It can carry both suction and water cleaning hoses.
- Suction hose cassette for up to 18 m of suction hose DN 125 or DN 150.
- Large cleaning hose reel holds up to 160 m 1 "hose.
- Remote control with proportional joysticks and display.
- Continuous regulation of water pressure and vacuum pump (0-100%).
- Independent regulation of vacuum and water pump.
- Measurement of the unwinding length of the pressure hose with the automatic stop function.
- Rear camera.
- Central lubrication system.
- ADR certification.
- Rope winch with a pulling force of more than 500 kg.

Certification available

High tank capacity

Vacuum pump SINZ 4200 m³ / h

Suction hose winch
for up to 25 m of DN 100 hose
